

Space for Food Security

G4AW M&E Webinar

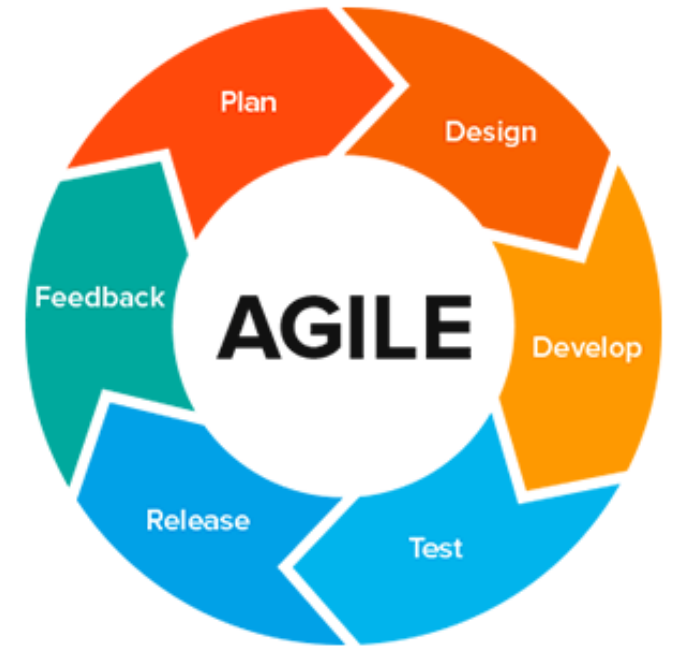

Introduction

Ruud Grim

M&E is about learning & sharing knowledge

- Do we reach our goals?
- Where and how can we improve?
- Where do I need support?

G4AW is learning as well (ongoing)

- M&E evaluation 2019-2020: this webinar
- Evaluations by external consultants 2019 & 2020
 - ✓ New publications, expected 2021 Q1
- Formal external evaluation by MoFA
 - ✓ End report expected summer 2021

Results G4AW 2018

A peek at our progress

NUMBER OF FOOD PRODUCERS

6,802,600

Exposed to and aware of G4AW

959,050

Participating and trained in using G4AW services

523,800

With improved livelihoods

121 Partners ... in **23** Projects ... in **14** Countries

Contributing to:

567,250
Users of G4AW services

1,180,550 ha
Land managed by reached farmers

27% female users
(based on 5 projects)

22% Young (<35y) users
(based on 5 projects)

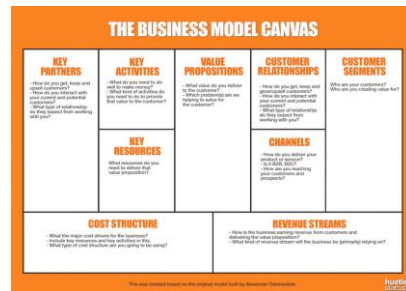

Increase in income
10%

Improved food production
not known yet

Efficient use of inputs
10%

Measuring progress

Results G4AW 2019

A peek at our progress

NUMBER OF FOOD PRODUCERS

11,928,300

Exposed to and aware of G4AW

2,916,900

Participating and trained in using G4AW services

1,020,100

With improved livelihoods

129 Partners ... in **25** Projects ... in **15** Countries

Contributing to:

984,800
Users of G4AW services

4,261,200 ha
Land managed by reached farmers

37% female users
(based on 13 projects)

41% Young (<35y) users
(based on 7 projects)

Farmers with increased income
44%
Based on 3 projects
whose income has increased by **10%**
Based on 2 projects

Farmers with improved food production
44%
Based on 8 projects
whose food production is improved with **9%**
Based on 5 projects

Farmers with more efficient use of input
53%
Based on 4 projects
whose use of inputs are more efficient by **3%**
Based on 4 projects

Today objectives & expectations

- Sharing our latest insights
- Discussion & receive your feedback

Expectations from NSO

- Rethink: Am I on the right track? Where can I improve?
- Initiate dialog with NSO for customization (if needed)
- Share your lessons learned (e.g. [STAMP](#), [CommonSense](#))
- Improved consistency within project and at program level

what do
YOU
expect?

Today's agenda & discussion

- Jeroen Rijniers (MoFA)
"Perspectives from Dutch policy on food security"
- Kees Oude Lenferink (NSO)
"Two birds, one stone"
- Kathelijne Beenen (NSO)
"Latest insights from NSO on M&E framework"

Thank you for
your attention
